

## EDUCATION

<b>Ph.D. Computer Systems Engineering</b> , <i>Rensselaer Polytechnic Institute</i>	August, 2017 - December, 2022
<b>M.S. Applied Mathematics</b> , <i>Rensselaer Polytechnic Institute</i>	August, 2017 - December, 2022
<b>M.S. Electrical Engineering and Computer Engineering</b> , <i>Brown University</i>	August, 2015 - May, 2017
<b>B.S. Modern Physics</b> , <i>University of Science and Technology of China (USTC)</i>	August, 2011 - May, 2015

## RESEARCH INTERESTS

My research interests lie in **Real-world-oriented AI+Knowledge**. The core ethos of my research is the integration of AI with domain knowledge to tackle real-world challenges across a wide spectrum of applications, with a focus on **computer vision**. My interdisciplinary research approach yields substantial societal impacts, particularly in the realm of **AI for Health**.

## EXPERIENCE

<b>Assistant Professor.</b> <i>DominoAI Lab, Michigan State University</i>	August, 2024 - Present <i>East Lansing, Michigan</i>
<ul style="list-style-type: none"><li>• My lab focuses on integrating AI with domain knowledge to tackle complex real-world challenges.</li><li>• Research interests cover knowledge-augmented deep learning, including physics-informed deep learning and neural symbolic integration; probabilistic graphical models; computer vision; AI for health.</li></ul>	
<b>Postdoctoral Research Fellow.</b> Advisor: Dr. Yan Liu. <i>Melady Lab, University of Southern California</i>	March, 2023 – May, 2024 <i>Los Angeles, California</i>
<ul style="list-style-type: none"><li>• Developing sophisticated algorithms for physics-informed deep learning using causal models and physical information. Exploring their applications in time-series forecasting, urban transportation, and health applications.</li><li>• Published papers at the top medical conference MICCAI [12], the American Medical Informatics Association (AMIA) symposium [14, 22], and the American Urological Association (AUA) [18]. High-quality manuscripts have been accepted for publication in the journal npj Digital Medicine [21] and TMLR [23].</li></ul>	
<b>Research Collaborator</b> on the Google Urban Transportation <i>Collaborator: Carolina Osorio</i>	April, 2023 – March, 2024 <i>California</i>
<ul style="list-style-type: none"><li>• Developed a data-efficient physics-inspired algorithm for urban transportation application</li><li>• Introduced the work in the 2nd Sustainable Urban Mobility: Simulation and Optimization Workshop</li><li>• One paper is published at NeurIPS [22].</li></ul>	
<b>Research Assistant.</b> Advisor: Dr. Qiang Ji. <i>Intelligent Systems Lab, Rensselaer Polytechnic Institute</i>	August, 2017 – December, 2022 <i>Troy, New York</i>
<ul style="list-style-type: none"><li>• Developed advanced knowledge-augmented deep learning algorithms with diverse types of domain knowledge such as biomechanics and mathematical theorems, and explored their applications in computer vision tasks.</li><li>• Developed efficient and accurate learning and inference algorithms on probabilistic graphical models and explored their applications in computer vision tasks.</li><li>• Published papers at top conferences, such as CVPR [18,10,5,4], NeurIPS [3], and ECCV [9].</li></ul>	
<b>Visiting Research Scholar</b> at IBM Thomas J.Watson Research Center <i>Collaborators: Kartik Talamadupula, Pavan Kapanipathi , Tian Gao</i>	January, 2019 – August, 2019 <i>Yorktown Heights, New York</i>
<ul style="list-style-type: none"><li>• Developed an effective knowledge-augmented deep learning algorithm for the knowledge graph completion task.</li><li>• Published one paper at AAAI [6].</li></ul>	
<b>Research Assistant.</b> Advisor: Dr. Qiang Ji. <i>Data-Driven Discovery of Models, Defense Advanced Research Projects Agency</i>	May, 2017 – December, 2019
<ul style="list-style-type: none"><li>• Developed robust structure learning algorithms through Bayesian approaches under insufficient data.</li><li>• Contributed and maintained primitives in the D3M AutoML Ecosystem.</li><li>• Published one paper at IJCAI [7].</li></ul>	
<b>Research Student.</b> Advisor: Dr. Benjamin B. Kimia <i>Laboratory for Engineering Man/Machine Systems, Brown University</i>	May, 2016 – May, 2017 <i>Providence, Rhode Island</i>
<ul style="list-style-type: none"><li>• Developed an effective approach for multi-frame enrichment of motion segmentation from videos.</li><li>• Completed a Master thesis titled "Multi-Frame Enrichment of Motion Segmentation".</li></ul>

## AWARD

- |   |                                  |
|---|----------------------------------|
| • The Workshop for Women in Machine Learning (WiML) 2023 Travel Funding       | October, 2023                    |
| • Allen B. Dumont Prize, Rensselaer Polytechnic Institute                     | May, 2023                        |
| • Conference on Uncertainty in Artificial Intelligence (UAI) Scholarship      | June, 2022                       |
| • Rensselaer-IBM Artificial Intelligence Research Collaboration Scholarship   | September, 2018 - December, 2022 |
| • The first prize in the University Student Innovative Research Program, USTC | 2014                             |
| • The third prize for the Academic Excellent Students, USTC                   | 2014                             |
